■ Education

Diploma in Software Engineering Technician, Centennial College, Toronto
Expected Graduation: April 2025

■■ Technical Skills

Languages: JavaScript, C#, Python, SQL
Web: HTML5, CSS3, React, Node.js
Tools: Git, VS Code, Docker, Linux
Databases: MySQL, PostgreSQL

■ Projects

Food Delivery Database System
• Designed and implemented an ERD with 10+ entities using PostgreSQL.
• Wrote queries, normalization, and sample data for a real-world food ordering system.

Swim Meet Management System
• Built a C# desktop app to register swimmers, plan events, and track results.
• Implemented JSON import/export and seeding services.

Personal Portfolio Website
• Created a responsive portfolio site using React and deployed it on Vercel.
• Integrated routing, reusable components, and dynamic project data.

■ Experience

Software Developer Intern – CodeNova Labs, Remote (May 2024 – Aug 2024)
• Contributed to building a task management web app using React and Node.js.
• Developed reusable components and improved performance by 20%.
• Collaborated in an Agile team and wrote unit tests for key features.

■ Certifications & Extras

• AWS Cloud Practitioner – 2024
• Finalist – Hack the North 2024
• Fluent in English and Malayalam
